App: Flutter / Dart (cross-platform)

Database: SQL Server, MySQL

LANGUAGES

Danish | English

PROFILE

Software developer with a background in psychology, combining technical expertise with an understanding of human behaviour.

My curiosity drives me to understand complex systems and build stable, secure solutions. Psychology gives me a unique perspective on user behaviour, which means I build technology that doesn't just work, but also feels intuitive and meaningful to the people who use it.

I bring strong problem-solving skills, a collaborative mindset and a drive to create solutions that make a difference by bridging the gap between technology and human needs.

EXPERIENCE

Software Developer
mar. 2026 - july 2026

Pharma Nord

- Built user interfaces for data entry and overviews in an accounting system
- Improved load times on key pages by optimising database queries

Tech: PHP, JavaScript, MySQL
